

Quality Policy

We are Velogy - a leading European polymer solutions business, applying edge to deliver high performing solutions at speed.

We are committed to delivering high-quality products and services that consistently meet customer expectations and applicable statutory, regulatory requirements. We aim to be a reliable, trusted partner by operating our assets and processes safely, efficiently, and responsibly.

We achieve this through:

→ **C**ommitment to Quality

We promote applying edge with disciplined execution, front line empowerment, clear accountability, and consistent, controlled processes to ensure reliable ways of working across our organization acting with velocity, entrepreneurial spirit and high energy to anticipate and meet customer needs.

→ **C**ustomer Focus

We actively seek to understand value chains and customer needs and are dedicated to meeting our commitments in a timely and responsive manner.

→ **C**ontinual Improvement

We systematically and regularly review our processes, products, and quality management system to drive improvement and enhance overall performance.

This Quality Policy provides a framework for setting quality objectives and is reviewed periodically to ensure continued alignment with the company's purpose and strategic direction.

Richard Roudeix
